The 2026 IEEE International Symposium on Electromagnetic Compatibility & Signal/Power Integrity (EMC+SIPI) is a forum that brings together world-renowned researchers, practitioners, and industry personnel under one roof to share ideas and advances in our field. The EMC+SIPI Symposium is the primary platform where important developments in electromagnetic compatibility and signal/power integrity are discussed – and 2026 will be no exception! The Symposium offers unique opportunities to develop existing relationships, build new ones, meet potential customers and employees, and showcase your products and services.

We invite you to exhibit or sponsor at this premier event. Early commitment at a reduced rate provides cost savings, increases visibility, and adds value to your company. Your presence enhances the Symposium's value to our EMC Society membership. There will be numerous opportunities to connect with attendees during exhibition hours, including networking breaks, poster sessions, Experiments and Demonstrations, "Ask the Expert" panels, and other events on the exhibit floor. Additional activities are in development to help build traffic and create even more meaningful engagement with attendees – watch for more details soon.

Dallas, Texas, is the perfect host city for the 2026 Symposium. The event will take place at the Hilton Anatole, a premier conference destination known for its expansive meeting space, resort-style atmosphere, and striking art collection. Located near Dallas' Design District and minutes from downtown, the Hilton Anatole offers easy access to world-class dining, entertainment, and cultural attractions. This vibrant venue will provide an ideal setting for learning, networking, and collaboration – and a memorable experience for all attendees.

We look forward to seeing you in Dallas!
